Lighting Data

Dimensional drawing (unit:mm)

Through the unique structural design, it can be rotated 360° and retracted by 50°, which is convenient for irradiation, and the CRI can be selected as 80/90. The room temperature is optional (2700K/3000K/4000K/5000K), which increases the illumination range of the lamp and is more convenient to use.

The LED recessed spots are presented in a simple design. The built-in spots are pleasantly modern and discreet. LED recessed spotlights are light sources that can be used universally and can be installed in the living room, office, bedroom, kitchen, hallway or stairwell.
